GRAND CHAMPION CORNISH REX FEMALE

GCC THOMPSON'S CH CHRISAN CARA MIA (33 31s) F 25.07.08

An elegant black smoke & white girl of only 15 months with a beautiful coat. Head a medium wedge with high cheek bones & narrowing to a rounded muzzle. Straight profile, level bite and OK chin. Large ears set rather high but her eyes are a little rounded though set on a slight slant. Elegant neck & muscular body of medium length carried high on long straight legs with oval paws. Long fine tail. Well-covered with a short silken coat, just a slight patch of stud tail. Well-rexed with tight ripples on the body, more plushy on the shoulders. Long white whiskers. A gentle girl shown in lovely condition though she preferred the security of her pen.

RGCC ARNOLD'S IMP GR CH PAPAVER PANDORA (33 36) F 07.09.04

A mature & very elegant girl of 5 years with lovely type but losing out to the winner on coat today. Head a medium wedge narrowing to a rounded muzzle. Almost straight profile, level bite and good chin. Large mussel shell-shaped ears with a broad base & rounded tips and set rather high. Expressive well-set eyes of oval shape & medium size. Muscular body carried high on long slender limbs with oval paws. Long fine tail. Short coat but looking a little untidy and it could be denser and felt a little greasy to the touch. Well-rexed with ripples on the body, slightly straighter down her spine. Long whiskers. A gentle girl who was easy to handle.

DEVON REX KITTEN, MALE (UP TO 6 MONTHS)

1ST & BOX NICE'S POSHNOSH XANADU (33a 18) M 14.06.09

A well-grown young man of only 4 months with a firm muscular body. Head a short broad wedge with a short nose, high cheek bones and blunt muzzle. Flat skull, rounded brow and quite good stop in profile. Shallow chin and level bite. Large ears with a broad base & rounded tips with small tufts; they could be set a little lower and I would prefer them to be larger at this stage of his development. Large oval eyes set wide apart and on a slant. Long neck & muscular body of medium length with a broad chest. Long slim legs & oval paws and long tapering tail well-covered with short fur. Very short coat on the body & rather harsh to the touch as it is growing through and not long enough to curl. Short crinkly whiskers. A very purry boy, he made up for the lack of coat with his temperament! Marked in my book as a silver tabby but he looked more like a brown tabby to me.

A blue silver spotted boy of 5 months with huge ears but his head is a little out of balance at this stage of his development. Head a short, quite broad wedge with a short nose & high cheek bones. Flat skull & rounded brow but I would prefer a more definite stop in profile. Blunt muzzle, OK chin and level bite. Very large low-set ears with a broad base and rounded tips. Large oval eyes set wide apart and on a slant. Elegant body but a little long & lean at present, carried high on long legs with oval paws. Long tapering tail well-covered with quite short fur. Well-covered but with a very short, loosely-waved coat and not long enough to curl properly but of an

even length on the body. Coat slightly harsh to the touch & downy tummy. Easy to handle.

3RD WAUGH'S MAGICAL PESKY PIXIEPAWS (33a 30sw) M 21.05.09

A well-grown young man of 5 months and litter brother to Elf Instardust. Head a little out of balance at present, a quite short wedge though I would prefer more breadth to it. Flat skull, rounded brow and OK stop in profile. Shallow chin and level bite. Huge ears with a very broad base and rounded tips but they could be set a little wider apart. Large eyes of rounded oval shape and set on a slant. Long neck & muscular body of medium length with long legs and small oval paws. Long fine tail well-covered with quite short fur. Body well-covered with a very short coat not long enough to curl properly and a little harsh to the touch. Short crinkly whiskers. Easy to handle.

Flat skull & rounded brow but I would prefer a more definite stop in profile. Deep chin & level bite. Large ears with a broad base & rounded tips but they could be set a little lower. Oval eyes set on a slant but they could be larger. Long neck & muscular body of medium length with long limbs & oval paws. Long fine tail.
